Attention Store Owner/Manager:

I'm not buying goods that are made in China until their attitude changes. **It's just not right for them to protect North Korea's military dictatorship and let them build nuclear bombs**, while at the same time they limit U.S. goods sold there to less than 15% of the $107 billion of Chinese goods they dump on our shores. China is now responsible for what they do. **So I'm not going to shop here anymore—and I'm telling my friends.**
